

Free&Easy

Advanced Practice Management Software on the house with our superior Medical Billing Services

As a medical billing technology company we're much more than just another billing service. We know the practice management side of your business from the inside out and software up.

When you sign up with our Medical Billing Service you and your entire practice will benefit from Free access to our advanced MedOffice software. MedOffice is a feature-rich practice management system with cost saving elements that will make your practice more manageable and profitable year round. Free offer can include installation, training & upgrades!

Keeping You In Control of Your Practice...

Login securely 24/7 to use our advanced scheduler, point-of-sale system, view detailed productivity reports, check status on every claims...and more! Also, MedOffice has robust connectivity to major EMR systems via advanced HL7 Link.

This is the best of many worlds: You maintain checks & balances, cut cost on software, training, support, and enjoy faster cash flow with maximized reimbursements and timely billing.

Free yourself to do what you do best and let's handle your billing needs with maximum efficiency and transparency.
